

Help make the environment favorable for horses with asthma

Things “TO DO”:

- ✓ feed hay on the ground and feed hay pellets, cubes or haylage for lower dust options
- ✓ keep horses with asthma outside as much as possible*
- ✓ move horses outside to clean the stable and sweep
- ✓ use low dust bedding options (shavings, cardboard and rubber mats)
- ✓ keep windows and doors open to improve air flow and ventilation
- ✓ discard of mouldy hay
- ✓ find places to store hay so it is not in close proximity to stabled horses
- ✓ keep stable as clean and free of dust as possible

Things “NOT TO DO”:

- ✗ do not feed mouldy or dusty hay
- ✗ do not use high dust bedding like straw
- ✗ do not store hay or straw in close proximity to horses
- ✗ do not confine horses in poorly ventilated areas
- ✗ do not keep affected horses indoors for long periods*
- ✗ do not keep the stable windows closed
- ✗ do not sweep or use leaf blower when horses are in the stable
